Charlie Snowder  
LOW-E Reflective Insulation

Dear Mr Snowder,

CertainTeed's Limited Asphalt Shingle Warranty will be in force and warranty unaffected if CertainTeed Asphalt shingles are installed over the LOW-E Reflective Insulation Therma Sheet.

CertainTeed's limited Asphalt shingle warranty protection is specifically against manufacturing defects in the shingles' quality and composition.

Proper installation is the sole responsibility of the roofing contractor and/or builder. CertainTeed's recommended application instructions are provided on each shingle wrapper and are available through CertainTeed's website [www.certainteed.com](http://www.certainteed.com).

CertainTeed shall not have any liability or responsibility under its warranty for Damage to or defects in its shingles caused by settlement, movement, distortion, deterioration, cracking, or other failure of the roof deck or of the materials used as a roofing base over which its shingles are applied. The design professional is responsible for ensuring 1) provision of adequate structural ventilation and/or vapor retarders as determined to be necessary, and 2) that all local codes are met (particularly taking into account local climate conditions).

We trust this information is helpful and if we can be of any further assistance, please contact this department.

Sincerely,

*Chuck Eppley*
